

KANE460

HVACR & IAQ Analyser:

- Test domestic & commercial boilers & water heaters
- Commission & Service Heat Pumps & AC/R systems
- Measure Building IAQ & Ventilation
- No Manifolds & Hose Sets – No Leaks, No Hassle
- Measure O2 to 21%, CO to 10,000ppm & NOx to 5,000ppm
- Measure differential temperature & pressure / gas draught
- Add optional wireless devices via **KANE LINK™**
- Test Heat Pump temperature differentials
- Test A/C & Refrigeration super heat & sub cool
- Test building air quality for CO, CO2, airflow, temp & RH
- Large color graphic display

KANE460

Supplied with probe, charger, backpack, protective pouch & 160 mbar pressure sensor

Options & Accessories

- Cell **NO** 0-5,000ppm
- KANE-IRP3** - Infrared printer
- PF2/10** - Set of 10 particulate filters

KANE460 Accessory

- HUB4** 2 wireless 2 way pressure sensors & 2 wireless temperature clamps

KANE-HUB4

Heat Pumps & AC/R Kit

KANE-HUB4 - 2 x wireless pass through pressure sensors & 2x wireless temp clamp probes

Action:

- Low & high pressure (Equivalent manifold 4 ways)
- Temperature (2 clamps)

Calculates:

- Superheat & subcooling temperatures
- Evaporation & condensation temperatures

Features:

- Wireless test up to 100M range line of sight
- See results on KANE460 & KANE LIVE iOS / Android app
- Prevent gas leaks
